2 YEAR WARRANTY

Part Number
SWM-MR-3000

Handle-It® Model 3000

The Handle-It® Model 3000 offers top of the line functions at a great price. It is ideal for those that are wrapping long pallets that would not normally fit on a standard turntable machine. It's also great for working conditions where pallets are being staged. Avoid unnecessary forklift traffic, where you have to bring the pallet to the wrapper. Simply bring the wrapper to the staging area and wrap.

Technical Specifications

Wrap Height	94"
Battery Charge	1 PH + N 50/60 Hz
Max Daily Workload	8 Hours / 200 cycles (approximate)
Powered by	2 x 12V AGM Batteries
